1125S-R

32mm (1-1/4") Soft-Faced PSA Backup Pads

The industry's finest finishing system.

The soft-faced 32mm vinyl backup pads is designed to be used with Polarstar SR discs for spot repair of topcoats and clearcoats. The backup pad was designed to help produce an even scratch pattern to eliminate dirt nibs or acute surface defects that can be easily removed with polish.

- Designed to follow contours while removing dirt nibs or other surface defects
- Helps to produce an even scratch pattern that is easily removed by polishing
- 1125S uses a 1/4"-20 female threaded pad attachment
- 1125S-R features "Twist-Lock" pad attachment

Designed to be used with MROS125 and MROS150 Finishing Sanders
