

# Abralon

**The industry's finest finishing system.**

Abralon is a unique, multifunctional sanding material developed for tackling both smooth and profiled surfaces. Its patented, flexible construction allows it to create a smooth sanding pattern on angled surfaces and edges while minimising the risk of pressure marks. The flexible weave also allows water and air to pass freely, making it suitable for both dry and wet sanding, by machine or by hand.

- **Combines benefits of abrasive cloth and non-woven products**
- **Constructed of fabric face, foam center and a grip backing**
- **Abrasive grains are bonded evenly to the fabric face**
- **Open cell design holds large amounts of water or solvent for lubrication and cooling**

*Available in 3", 6", 9", 12" diameter foam grip discs. Grit range: 180-4000.*
