# Gold Soft

## Foam-Backed Finishing Discs

Designed for machine sanding applications, Gold Soft laminated discs combine latex impregnated paper, a 5mm foam interface and grip backing to produce a highly flexible product ideal for contour sanding.

- A special stearate coating is used to resist clogging and loading.
- Durable, aluminum oxide grain delivers a long lasting, smooth cut.
- Designed for final sanding of e-coats, primers, sealers and panel blends.
- 6" 15 hole discs can be used with or without vacuum

*Available in 6" 15-hole grip discs. Grit range: P320, P500 and P800.*
