

MIRKA

Mirlon Total®

Fine finishing surface preparation.

Developed using Mirka's innovative Total Coating™ Technology, Mirlon Total is more aggressive than Mirlon and produces a dense scratch pattern and rapid result. Suitable for use both wet or dry, it features an open and flexible structure and strengthened fibers which make it strong and long-lasting.

- New open design is thinner and more flexible than original Mirlon
- Three dimensional structure made with cut fiber strands; coated with resin and abrasive
- Consistent coating of aluminum oxide (VF 360) and silicon carbide (UF 1500, MF 2500) abrasive grains provide uniform, dense scratch pattern
- Very flexible product ideal for use on contoured surfaces
- Manufactured by Mirka using latest technology for superior quality and performance

Available in scuff pads, discs and rolls. Grit range: Very Fine (360), Ultra Fine (1500), and Micro Fine (2500).
