

MIRKA

Mirlon

Fine finishing surface preparation.

Mirlon is a flexible, three-dimensional fiber sanding material that's easy to use on profiled surfaces and produces an excellent finish. It's ideal for matting of surfaces and creates an excellent base for the next coating layer.

- **Three dimensional structure made with cut fiber strands; coated with resin and abrasive**
- **Consistent coating of aluminum oxide (VF) and silicon carbide (UF) abrasive grains provide more uniform scratch pattern**
- **Very flexible product ideal for use on contoured surfaces**

Available in 6" x 9" scuff pad, 5", 6" scuff disc and 4", 4-1/2" scuff roll. Grit range: Very Fine and Ultra Fine
