

MIRKA

Q.Silver

Enhanced finishing performance.

With a backing consisting of a flexible and strong impregnated latex paper, Q.Silver features optimal aggressivity, resulting in fast and efficient stock removal. The high heat endurance of this fully resin bonded abrasive makes it ideal for tough tasks, such as 'down-to-metal' sanding operations.

- Resin bonding provides superior grain support
- Durable, aluminum oxide grain
- Excellent, uniform grain distribution provides an enhanced surface with a more consistent scratch pattern
- Semi-open coat design provides fast finishing
- Q.Silver has a special self-sacrificing stearate coating to reduce clogging and loading

Available in rolls, discs and sheets. Grit range: P80-P1500.
